Goals

Make meaningful work and never stop learning.

Toolkit & Skills

Exercised often:

HTML5	Bootstrap	JavaScript	PHP
CSS3 (incl. LESS and SASS)	Node.js	jQuery	
Adobe Photoshop	Git	Angular	

Familiar (learned in the past, but used less frequently now):

Python	MySQL	Arduino
Django	Jasmine	Backbone
Graphical libraries (D3, Paper.js, Processing)		Ember

Work Experience

Accenture, senior consultant

April 2015 - Present

Front-end development for clients such as Pizza Hut and Select Comfort. Also prototypes concepts for exploration and client pitches.

Scripto, web developer and designer

January 2011 - March 2015

Scripto is a web-based television production software built using Node.js. Hired as a JavaScript developer, my role grew to include design and UX for the product. Born out of *The Colbert Report*, Scripto now supports *Last Week Tonight*, *The Nightly Show*, *The Daily Show*, and *The Late Show*.

ScriptEd, volunteer instructor

September 2014 - Present

Teaching front-end development to high school students in under-resourced schools. Mentoring students during semi-annual hackathons.

Reuters, design technologist

May 2012 - August 2013

Prototyped new features and user interactions using Ember and Backbone. Also worked on sites for Reuters Next, which focused on agile methodologies, TDD, JavaScript, and Python.

Yelp, front-end web developer

September 2008 - January 2011

Wrote HTML, CSS, JavaScript, and Python for Yelp.

Education

New York University

MPS, Interactive Telecommunications Program

UCLA

BA, Economics

Strala Yoga, NY

200-hour yoga teacher certification
