Goals

Make meaningful work and never stop learning.

Toolkit & Skills

Exercised often:

| | | | | |
|------------|---------|----------|------|----------|
| HTML | jQuery | Backbone | Gulp | MongoDB* |
| CSS | Jasmine | Angular | Git | Patience |
| JavaScript | Sass | React* | | |

* still a beginner, but actively learning

Familiar (learned in the past, but used less frequently now):

| | | | |
|--------|-------|---------|---------|
| Python | LESS | PHP | Node.js |
| Django | Grunt | Arduino | |

Graphical libraries (D3, Paper.js, Processing)

Work Experience

Accenture, senior front-end developer 04/2015 to Present

Responsible for front-end architecture of large scale responsive sites built on Adobe's Hybris platform. My projects have mainly involved Backbone, Angular, Bootstrap, Sass, HTML5, and CSS3.

Freelance Developer 05/2011 to Present

Role varies per client, but usually involves building out the front and sometimes backend, UX/UI design recommendations, as well as finding a good solution for their needs and habits. Selected clients include Ai Weiwei, L'Oreal, and the New York Botanical Gardens.

Scripto, developer and designer 01/2011 to 03/2015

Scripto is a web-based television production software built using Node.js and Socket.IO. In short, I wrote a lot of JavaScript during my time here. My role grew to include design and UX for the product. Born out of *The Colbert Report*, it now supports *Last Week Tonight*, *The Nightly Show*, *The Daily Show*, and *The Late Show*.

Reuters, design technologist 05/2012 to 08/2013

Worked with designers to prototype new features and user interactions. Python, Jasmine, TDD, Backbone, CoffeeScript, and Sass were some of the technologies and processes used.

Yelp, front-end web developer 09/2008 to 01/2011

Wrote HTML, CSS, JavaScript, and Python.

Education

New York University
MPS, Interactive Telecommunications Program

UCLA
BA, Economics

Strala Yoga, NY
200-hour teacher certification

Hosh Yoga, NY
25-hour kids yoga teacher training

Teaching Experience

Columbia University, guest instructor Spring Semester 2016

Teaching introductory HTML, CSS, and JavaScript, and providing guidance and support for students in *Theory and Programming of Interactive Media I*.

Accenture, team coach 04/2015 to Present

Assisting instructors and students in internal training programs, as well as workshops run in partnership with Girls Who Code.

ScriptEd, volunteer 09/2014 to Present

Teaching front-end development in under-resourced high schools and helping students with their projects at hackathons.
